

-Implementation of Directive (EU) 2022/362- Introduction of a tax on CO2 emissions in toll charges in the EU

A CO2 emission class (class 1, the most polluting, to class 5, the least polluting) will be defined according to the specific emission rate of your vehicle.

You must declare the mandatory information and upload your vehicle's supporting documents to the AS24 Customer Area.

Vehicles registered before 01/07/2019 will be class 1 by default and will not be eligible for a better class.

The timetable for the introduction of CO2 taxation in Germany and Austria will depend on the date of implementation in the respective countries.

-Implementation of Directive (EU) 2022/362-
Documents to be provided

Mandatory Vehicle Data		Data format	Certificate of Conformity (COC)	Customer Information File (CIF)	Certificate of Registration (CR)
FOR ALL	Technically Permissible Laden Mass	XXXXX	16.1	1.1.4	F1
	Date of 1st Registration	DD.MM.YYYY			B
	Specific CO2 emissions (g/tkm)	XXX,X	49.5	2.3 or 2.6.1	
	Sub-group	X-AB	49.7	1.1.5 bis/ 1.1.5a	
	only if sub-group is unknown				
	Axles configuration	YxZ	1 & 3	1.1.3	
	Chassis type	abcd	38		J2 (FR) / 4 (DE)
	Engine power (kW)	XXX	27.1	1.2.1	P2
	Cab type	abcd		1.1.13
